# CLUSTER MOBILITY & LOGISTICS

**MOVING  
TECHNOLOGY  
FORWARD**

## THE TECHNOLOGY NETWORK FOR MOBILITY AND LOGISTICS

In the age of electromobility and IT logistics, we work with our partners and members to find intelligent answers to upcoming social and technological challenges. We support in securing existing competitive advantages and creating new ones.

Through broad networking, mediation of project partners, contacts to international networks and the initiation and promotion of research projects, we sustainably shape the innovation fields of mobility and logistics.

Uwe Pfeil  
Cluster Manager

## WHAT WE DO

Critical infrastructures such as mobility and logistics are undergoing continuous change. Technologies disappear and new ones emerge, socio-economic contexts adapt. This increases the pressure and need for action from companies, public institutions, and the competitiveness of entire regions. We address these challenges as a community, creating solutions and collaborating on innovative projects.

The Cluster Mobility & Logistics based in the TechBase Regensburg is managed by R-Tech GmbH, a subsidiary of the city of Regensburg.

## KEY TOPICS

A special feature of the cluster is the interdisciplinary setup of its partners and members from the mobility and logistics sectors. Science and research are an essential part of this.

Primary goal as a technology cluster is to build projects that we promote and advance through the networking of our network partners

**In terms of content, the Cluster Mobility & Logistics deals with the following topics:**

- > Vehicles & Infrastructure
- > Sustainable mobility
- > Data & networking
- > Production logistics
- > Intralogistics
- > Transport logistics

## CORE TASKS OF THE CLUSTER

- > Build platforms for innovation & cooperation
- > Successfully network key players in business, science and politics through trade fairs & congresses
- > Make competencies and activities of members and partners visible to the public
- > Support members in applying for funding from the EU, the federal government and Bavarian for our joint projects
